Tests conducted per confirmed case of COVID-19

Shown is the rolling 7-day average. The number of tests divided by the number of confirmed cases. Not all countries report testing data on a daily basis.

Our World
in Data

Daily new confirmed COVID-19 deaths per million people

Shown is the rolling 7-day average. Limited testing and challenges in the attribution of the cause of death means that the number of confirmed deaths may not be an accurate count of the true number of deaths from COVID-19.
